

Programming Assignment #1

Topics : Recursion

Instructions for Submission

1. Register on spoj.com and a2oj.com. Link your *spoj* account to *a2oj*
2. Go to the front page of *a2oj* and search for the contest titled **Crash Course (DS & Algo)**. The contest code is **40614**.
3. Register for the contest. You'll see a pop-up with 3 problems. Before submitting the problems, make sure that you're logged into your spoj account. Click on any problem and it should redirect you to the spoj page. Submit your question on **this** page. After submission, your ranking should be updated withing 5 minutes.
4. I think the problem statements are self explanatory and hence I did not create a separate problem sheet. However, if you have any queries regarding the problem statement, or the intended solution, you can post them on the slack channel.
