Kite Maker

ZPRAC-16-17-Lab2

[30 points]

Shivam loves kites. But Prof Shunmugaraj wants him to learn numbers, hence, the professor has come up with an innovative solution. Prof Shunmugaraj forms a kite shape using the number he wants to teach Shivam. Write a C program to help the troubled professor.

Input:

 You will be given a number n. ($0<n\leq9$)

Output:

 Draw a kite using n.

Example:
Input:
2
Output:
```
  2
 222
22222
 222
  2
```
